

Spay and Neuter

REASONS TO ALTER YOUR PET

DID YOU KNOW?!

- Spaying and Neutering is good for your animal as it helps prevent cancer and certain diseases.
- Spaying and Neutering is the best solution for controlling and preventing pet over population.
- Spaying and Neutering can save you money on dog licensing fees.
- Spaying and Neutering your pets will encourage them to stay home, and may help lessen fence jumping and digging behaviors

PET OVERPOPULATION

In six years, one female dog and offspring can produce **67,000** dogs.

In seven years, one female cat and offspring can produce **420,000** cats.

The Humane Society of the United States (HSUS) estimates the Yearly Pet Owner Overpopulation of Dogs and Cats as follows:

- Number of animals turned into animal shelters each year – 8,000,000
- Number adopted to new families – 4,000,000
- Number reclaimed by owners – 750,000
- Euthanasia – 3,250,000 animals are put to sleep every year because there are not enough homes to take
